

Hello,

My name is Ali El Achkar, I am 20 years old, and I live in Gothenburg. With a background in systems development, extensive work experience, and a strong drive to learn new things, I am now seeking an opportunity to contribute my skills and energy in a new role.

Over the years, I have built a broad experience across various industries, which has given me a solid understanding of teamwork, customer relations, and effective problem-solving. Through my previous roles at ICA and DHL Freight, I have developed qualities such as patience, creativity, and a strong customer focus. Additionally, my time as a youth leader at the Swedish Church allowed me to inspire and collaborate with young people, further strengthening my leadership skills.

Being multilingual (Arabic, Swedish, and English) has enabled me to communicate seamlessly with people from diverse backgrounds, and my education in systems development has laid the foundation for understanding technical solutions and information systems. I also hold a category B driver's license and comprehensive forklift certifications, making me adaptable to roles that require logistics or transport expertise.

In my free time, I enjoy working out, spending time with friends, and watching football. My interests reflect my social and energetic personality, and I believe this, combined with my work ethic and eagerness to grow, makes me a strong candidate for this position.

I look forward to the opportunity to discuss how I can contribute to your organization. References are available upon request.

Thank you for your time and for considering my application.

Best regards,

Ali El Achkar
